

Business Description Capture

 COMPAAAS

I'll use your description to generate your business plan and model.

Here are some options to get you started

[What is a business idea](#)

[Example business description](#)

[Business Idea Check List](#)

Type a question

WHAT > WHO > WHEN > WHERE >

What is your business idea?

Start Typing Here

Conversational Interface

Based on natural language process the ChatBot engages the customer with a natural toned dialogue guiding the user through answering the five key questions: What, Who, Where, When, Why

Contextual Links

Relevant links to description examples along with other resources to help define the business model will be included with the Chat bubble instance

Agent Assistant Interface

This is a free form text input field for posing questions to the Intelligent Agent.
